
East Surrey Hospital Radiology Department Induction Pack

Welcome to the radiology team at Surrey and Sussex NHS Trust. All acute services are based at East Surrey Hospital where you will spend most of your time. This is where you will find your office facilities and the majority of consultants. There will be opportunity if required to visit our other major site at Crawley Hospital for US training as required.

Your timetable will vary from week to week but will take into account specific modular requirements. You may be given one half day a week for personal study when you are preparing for exams. This can be agreed on induction.

STAFF

Consultants

Dr T Newman Sanders FRCR FRCP Clinical Director, Musculoskeletal Radiology

Dr S Biswas BSc (Hons) MB BS MRCP FRCR Specialist interest in Neuroradiology and Gynaecology

Dr A Ceccherini BA MB BChir MRCP FRCR Specialist interest in MRI, MSK and ED radiology.

Dr S J Gwyther MB BS FRCS FRCR Specialist interest in Haematological Oncology, ENT and Gynaecology

Prof C Heiss Dr.Med Consultant Angiologist (Medical Directorate) Specialist Interest Vascular Intervention

Dr R P McAvinchey MB BS MSc MRCP FRCR Specialist interest in Breast and Radionuclide imaging

Dr J Nadjafi MD FRCR Specialist interest in MRI, MSK radiology. Clinical Governance lead. Deputy Clinical Lead

Dr A Pankhania MB ChB MRCS FRCR Specialist interest in interventional radiology, urogynaecological radiology, RCR tutor.

Dr M Pascaline FRCR General Radiology. Special interest in Ultrasound

Dr N Sellars BA MB BS MRCP FRCR Specialist interest in GI and Uroradiology

Dr R Ahmed MA MB BChir MRCP FRCR Specialist interest in Chest and Cardiac.

Dr J Vive BSc Hons MB BS FRCR Specialist interest in Paediatrics, ENT and Rheumatology

Dr D Banerjee FRCR Specialist interest in Body MRI and CT, GI radiology

Dr P Patel FRCR Specialist interest in Paediatrics and Neuroradiology . Audit lead.

Dr E Ismail MBBS, EDiR, FRCR Specialist interest in GI and GU radiology

Dr T Moharrum, MBChB, FRCR Specialist interest in Neuroradiology, Head & neck and MSK.

Dr N Ntagiantas MD, MBBS, MSc Specialist interest in interventional radiology (cross site consultant with St Georges)

Dr V Patsiogiannis MD Specialist interest in interventional radiology (cross site consultant with St Georges)

Dr A Peternac MD PhD Specialist interest GI radiology

Dr I Perera FRCR Specialist interest in Breast imaging

Dr A Villanueva Specialist interest in Chest and Cardiac Imaging

Managers

Mr Mohammad Luqman- Service manager

Mrs Diane Mcfeeters, Mrs Angela Eiffert- Operational managers

Mrs Joanne Macaulay- PACS manager

Mrs Pauline Humphrey- Office administrative manager

Lead for service

Mrs Janis Duff, Mr Shennan Jose - CT

Mrs June Milliams - MRI

Mrs Debbie Chandler, Miss Alexandra Turpin- USS

Mrs Shelby McNair - Nuclear Medicine

Mrs Kim Bullock- Plain Film

Secretarial Support East Surrey

Ann Billings, Kate Kakande, Shaunagh Clark

Radiology Facilities

4 CT scanners cross site

2 MRI scanners. Further scanner being planned

Siemens Zee Artis angiosuite

6 General ultrasound 8 Obstetrics and Gynaecology rooms across all sites

2 Gamma cameras

Meetings

DAY	TIME	MEETING	VENUE
Monday	1- 2 pm	Medical X ray meeting	X ray
	1-3 pm	Breast MDM	PGEC
	1.15- 2 pm	Paediatric meeting	PGEC
	2.30- 3.30 pm	Stroke meeting	X ray
	5- 6 pm	Orthopaedic meeting	PGEC
Tuesday	8 -9.30 am	GI cancer MDM	PGEC
	11-12.30 pm	Chest cancer MDM	PGEC
	12.30- 1.30 pm	GI benign meeting	X ray
	3.30 - 5 pm	Haematology MDM	PGEC
Wednesday	8- 9 am	Vascular MDT	X ray
	11-12 am	Lung TWR	X ray Dr Ahmed office
Thursday	8.45- 10 am	Neuroradiology MDT	PGEC
	8.30-9.30 am	Head and Neck MDT	PGEC
	12- 1 pm	Benign chest MDT	X ray Dr Ahmed office
	12.30-2 pm	Grand round	PGEC
	1- 2.30 pm	Urology MDM	PGEC
Friday	8.30-9.15 am	Gynae (network) MDM	PGEC

Attendance at the above meetings is encouraged especially during relevant module attachments.

Interesting cases review meeting held roughly once a month. Audit meetings occur every 2 months. You will be expected to attend these meetings. You are expected to do one audit per year and I would encourage early engagement. Once you are settled in please speak to our audit lead or me to see if there is anything that is of interest. I would also encourage liaising with our excellent clinical departments to establish cross speciality improvement projects.

Consultant tutorials

These will last ½ hour to an hour. These will vary week to week but these are the sessions available. Please check with relevant consultant.

Monday 11.15 am- 12 pm- Dr Banarjee

Tuesday 8.15- 9 am - Dr Biswas

Tuesday 4.15- 5 pm- Dr Moharrum

Wednesday 8.15- 9 am- Dr Nadjafi

Friday 8- 9 am – Dr Newman Sanders

These may vary and I would encourage early discussion with consultants to identify suitable times.

Rotas

There is a weekly rota which is on the main notice board. Your rotas will be individualised to meet curriculum requirements. The allocation of a private study session is discretionary.

Sessions are structured 9-1 pm and 1- 5 pm. You will usually be rostered with a consultant. You will have your own US and screening sessions after the first 8 months as a ST1.

Trainees ST3 onwards will have a greater degree of autonomy and will have Duty radiology sessions.

Duty Radiologist

There is a dedicated line that is portable- **4215**.

The role of this person is to answer questions from clinical teams and GPs. The complexity of this role has increased so it is generally consultant/more senior ST led. You may be asked to report imaging scans, perform US or fluoroscopy.

On call

On call for STs start from the 3rd attachment as a ST1.

All STs on call will be doing roughly a 1 in 8 rota. In any 4 month block you will mirror the consultants and do 3 sets of weekdays (Monday to Thursday) and 3 sets of weekends (Friday and Saturday only).

We work extended weekdays 5 – 7.30 pm when on call and Saturday is 10-2 pm. (We do work Sundays 10- 2 pm but you are not required to do this). There is always a consultant on site during fixed sessions. After these times teleradiology takes over. There is no commitment to you outside these times.

Leave

6 weeks' notice is required for annual and study leave. Please note that the allocated annual leave for each 4 month block needs to be taken in that block. Leave can only be carried forward after discussion with the college tutor and will only be considered under exceptional circumstances.

You are entitled to 30 days study leave per year of which several days are for the KSS study days and the MSC. You can take up to 5-days private study before an examination and on two occasions a year, which will come out of your 30 study leave days. The day of the examination is given as an additional day outside of the 30 days, and you can take this on 2 occasions.

You can visit the study leave pages on our SASH Education Campus website, which explains the process for approval and for reimbursement: <https://sasheducationcampus.net/medical-education/study-leave-2/>

Any unscheduled absence (sickness, looking after a poorly child, dental appt etc) needs to be notified to FIRST CARE on 0333 321 8053. You should also notify Dr Pankhania and Pauline Humphrey by email.

Radiology general information

There is a dedicated office for the registrars with 2 PACS work stations. There is an iMac installed. Though this is set up we do not use it for teaching currently.

There is a staff common room with an outside seating area.

Beverages are provided at a small weekly cost.

The majority of imaging modalities are based at the East Surrey site.

Amenities

Canteen facilities are available on the first floor.

At the main entrance there is a WH Smiths/Costa coffee and a Boots Chemist all of which serve refreshments.

Library Facilities

Found in the connecting corridor to the Trust management offices. Well stocked with radiology books and some journals. Of note the library holds Clinical Radiology and Radiology/Radiographics.

In addition there is an extensive collection of both departmental and personal owned books kept in the department.

We are happy to add to both the above as necessary.

Useful Numbers

Lists are in all reporting rooms.
