FOUNDATION DOCTORS

F1 trainee induction programme questionnaire

The Severn Foundation School is coordinating a project for participation by all F1s. You are invited to complete an F1 trainee induction programme questionnaire. This survey is part of a long-term project to identify any concerns/anxieties you may have about starting your F1 post. The information you provide will help to develop a realistic evaluation of the induction programme and help us to improve working life for future trainees. To access the survey please log onto

<https://www.surveymonkey.co.uk/r/F1induction2019>. **Please complete the survey** in one sitting since you will not be able to access it later. It should only take you approximately 10 minutes to complete.

The questionnaire is anonymous, and your thoughts and comments are greatly appreciated.

New independent evaluation of Welcome to UK practice: positive outcomes for overseas doctors and patients - **Are you new to working as a doctor in the UK?**

Adapting to UK medical practice can be hard for any doctor, regardless of where you're from or how experienced you are. There can be significant differences in practising medicine in your home country and the UK, and it can be difficult to adjust to working in a new culture.

Our free Welcome to UK practice workshop is designed to help doctors new to the UK, by offering practical guidance about ethical scenarios you may encounter, and the chance to connect with other doctors coming from abroad.
